Objective

I am enthusiastic about driving innovation and adopting the changing world of technology. I am committed to creating solutions that make an impact leveraging my skills to contribute to the organization's growth and success.

Job Experience

JUNIOR SOFTWARE ENGINEER

Orange Solutions LTD – United Group

Working Period: October 2024 – Present

- Develop responsive and user-friendly frontend interfaces using ReactJS, improving user experience and interface performance across ERP modules.
- Develop and optimize ERP system integrations and dashboards, enhancing business workflows and enabling data-driven decision-making.
- Improve software solutions using the Zab Framework (Java-based) and contributed to high quality team deliverables, including Crystal Reports and database optimizations.
- Actively involved in Research & Development (R&D) activities, implementing new features such as Dynamic Dashboards, Dynamic Reports, HRD Personal Dashboards, and improving core systems including file upload performance and reliability.

SOFTWARE ENGINEER (INTERNSHIP)

Orange Solutions LTD – United Group

Working Period: July 2024 – September 2024

- Built foundational expertise in ERP systems, business workflows, and software development using the Zab Framework (Java-based).

STUDENT CO-ORDINATOR

RIMT University, Punjab, India

Working Period: July 2022 – July 2023

- Represented Bangladeshi students as a coordinator, assisting the International Admission Department with student guidance and support.
- Facilitated communication and engagement between Bangladeshi students and the university, ensuring a smooth transition for newcomers.

Academic Credentials

BACHELOR of TECHNOLOGIES in COMPTUER SCIENCE AND ENGINEERING

RIMT University, Punjab, India

CGPA: 7.68 out of ten
Year: 2019 – 2023

HIGHER SECONDARY CERTIFICATE

Saidpur Govt. Technical College, Saidpur, Nilphamari, Bangladesh

GPA: 4.25 scale of five
Year: 2017 – 2018

SECONDARY SCHOOL CERTIFICATE

Syedpur Govt. Technical High School and College, Saidpur, Nilphamari, Bangladesh

GPA: 5.00 scale of five
Year: 2015 – 2016

Projects

E-Prescription and Medical Store Management

Technologies: React, Material UI, Tailwind CSS, Spring Boot, MS SQL Server

- Developed an efficient E-Prescription & Inventory Management System aimed at streamlining prescription management and inventory tracking for BIWTA.
- Collaborated closely with the team to design and implement the frontend using React, Material UI, and Tailwind CSS, ensuring an intuitive and responsive user experience.
- Integrated the backend using Spring Boot, with MS SQL Server as the database, to handle data management and ensure smooth functionality.
- Focused primarily on the frontend, overcoming challenges to deliver a polished and user-friendly interface.
- Successfully deployed the system, which significantly enhanced operational efficiency for the client.

Zab Framework (R&D Projects – ERP Platform)

Technologies: Zab Framework (Java-based), ERP Systems, MS SQL Server, Crystal Report, HTML, CSS, JS, JAVA

- Worked in **Research & Development (R&D)** on enterprise-level ERP solutions using the Zab Framework.
- Implemented a **Dynamic Dashboard** to provide real-time insights and configurable data views.
- Developed **Dynamic Application Reports**, enabling flexible and role-based reporting across modules.
- Built a **Personal Dashboard (HRD)** to enhance employee-specific data visibility and workflow efficiency.
- Improved the **file upload system**, optimizing performance, reliability, and user experience.

Mamiya OP – ERP System Enhancements

Technologies: Zab Framework (Java-based), ERP, MS SQL Server, Crystal Report

- Implemented multiple functional modules within the ERP system to support organizational operations.
- Developed Canteen Management System for employee meal tracking and management.
- Implemented Disciplinary Action and Injury Management modules to support HR and compliance processes.
- Built Medical Pass and Gate Pass Management systems for employee access control
- Developed Route-wise Conveyance Management, improving transport planning and reporting

Bangladesh Eye Hospital – HRD Management System

Technologies: Zab Framework (Java-based), ERP, MS SQL Server, Crystal Report

- Implemented a complete HRD module for hospital operations.
- Developed Employee Management, Payroll, and Attendance Management systems.
- Ensured seamless integration between HR modules for accurate reporting and operational efficiency.
- Enhanced data accuracy and reduced manual HR processes through automation.

UHSL – R&D Feature Implementation

Technologies: HTML, CSS, JS, JAVA

- Implemented a Dynamic Notification System that fetches notifications from multiple servers and enables users to approve or reject requests directly from the notification interface, improving workflow efficiency and response time.

Skills

Programming Language	:	JavaScript, Python, Java
Web Development	:	HTML, CSS, Tailwind, ReactJS
Database	:	MsSQL, MySQL, MongoDB
Designing Software	:	Adobe Illustrator, Figma, Photoshop
Video Editing Software	:	Adobe Premiere Pro
Computer Skills	:	MS Word, MS Excel, MS PowerPoint
Audio Editing Software	:	Adobe Audition, Fl Studio
Hobbies	:	Music, Painting

Declaration

I solemnly declare that all the information furnished in this document is free of errors to the best of my knowledge.
